RAINFED FARMING

A watershed moment

A Pulse Revolution is possible even in the most backward districts, as a PPP project in Bundelkhand has shown

HARSHAD DAMODARAN
DAMO (MAHARASHTRA) AUGUST 10

ZAHM RM (RAJASTHAN) has two major rivers, as it has been described in the entire 20-km stretch being jointly built by the government. The Irumbi and Chambal rivers, located in the upper course of the Ravi-Rahart River, are combined in the same stretch. The two rivers are connected by a long stretch of natural water flow. The Chambal River, located in the upper course of the Ravi-Rahart River, is connected by a long stretch of natural water flow. The two rivers are connected by a long stretch of natural water flow. The Chambal River, located in the upper course of the Ravi-Rahart River, is connected by a long stretch of natural water flow. The two rivers are connected by a long stretch of natural water flow.
